

Json::CharReader::Factory

```
graph BT; A[Json::CharReaderBuilder] --> B[Json::CharReader::Factory];
```

A UML class diagram showing an inheritance relationship. The base class, 'Json::CharReader::Factory', is represented by a white rectangular box at the top. The derived class, 'Json::CharReaderBuilder', is represented by a gray rectangular box at the bottom. A solid blue arrow points vertically from the top of the 'Json::CharReaderBuilder' box to the bottom of the 'Json::CharReader::Factory' box, indicating that 'Json::CharReaderBuilder' inherits from 'Json::CharReader::Factory'.

Json::CharReaderBuilder
