

Json::CharReader::Factory

```
graph BT; A[Json::CharReaderBuilder] --> B[Json::CharReader::Factory];
```

A UML class diagram illustrating inheritance. The class 'Json::CharReaderBuilder' is shown at the bottom in a white box with a black border. A blue arrow points upwards from this box to a gray box with a black border at the top, labeled 'Json::CharReader::Factory'. This indicates that 'Json::CharReaderBuilder' inherits from 'Json::CharReader::Factory'.
